Competitions from my Point of View – the Designer's one

COMPETITIONS FROM MY POINT OF VIEW – THE DESIGNER'S ONE

For me as a motion designer and creative director could competitions be one of the best way for professional development.

Competition allows the client to select the best of a number of proposed solutions to his demand.

RESERVED MOTIVATION

So how is the situation in Czech?

The most of the companies in my country do not chose the competitions to get the best quality but to spare some money.

This reversed motivation changes the meaning of the competitions radically.
It is wierd!

PRIZE AND JURY

I believe that most of us have some idea of the most important factors which influence the result of each competition.

It is the Jury Members, Competition Settings and Reward for the winner.
These factors make overall competition settings.
